SECTION I INVITATION TO TENDER

NOTICE DATE: Tuesday, 1st September, 2020

TENDER REF NO: NMC/ONT/02/2020-2021

TENDER NAME: TENDER FOR PROPOSED SUPPLY, INSTALLATION,
TESTING, TRAINING AND COMMISSIONING OF BIOMETRIC SYSTEM,
NETWORK SECURITY FIREWALL AND CCTV SYSTEM

Numerical Machining Complex LTD is an engineering firm incorporated under the Companies Act as a Limited Liability Company established in 1994 by the Kenyan Government. The Company aims at becoming the regional market leader in steel production, and manufacture of high quality machinery, machine tools and components through employing appropriate state of the art technology and highly skilled man power.

Numerical Machining Complex Ltd invites sealed bids from eligible candidates for supply, installation, testing, training and commissioning of Biometric System, Network Security Firewall and CCTV system

Interested eligible candidates may obtain further information and inspect the tender documents at Numerical Machining Complex Ltd located at Workshop Rd from the Procurement Office during normal working hours.

A complete set of tender documents may be obtained by interested candidates upon payment of non-refundable fees of 1,000 in cash or Bankers cheque payable to Numerical Machining Complex Ltd cash office or downloaded for **free** from the company website www.nmc.go.ke or Public Procurement Information Portal www.tenders.go.ke.

Bidders who download the document from the websites MUST register their interest immediately by sending an email to supplies@nmc.go.ke stating Company name, contact person, email, postal address and telephone number.

Completed tender documents are to be enclosed in plain sealed envelopes marked with tender reference number and be deposited in the Tender Box at Numerical Machining Complex Ltd, Workshop Rd or be addressed to The Managing Director, Numerical Machining Complex Ltd, P.O Box 70660-00400 Nairobi so as to be received on or before **14**th **September, 2020 at 11.00am East African Time.**

Tenders must be accompanied with a bid security from a Commercial Bank for Kshs 50,000.00 and must be valid for 90 days.

Bulky tenders which will not fit in the tender box shall be received by the procuring entity through the office of the Managing Director and shall be recorded.

Prices quoted should be net inclusive of all applicable taxes, delivery at Numerical Machining Complex and must be in Kenya Shillings or any free convertible currency and shall remain valid for **Ninety (90)** days from the closing date of the tender. The exchange rate to be use will be the prevailing CBK exchange rate on the date of opening.

There shall be a mandatory site visit on **8th September**, **2020 at 11:00am**. Bidders who attend the site visit will be issued with a duly signed and stamped site visit certificate immediately after the visit and will in addition receive an acknowledging email from **supplies@nmc.go.ke** on the same day.

Tenders will be opened immediately thereafter in the presence of the Candidates or their representatives who choose to attend at Numerical Machining Complex Ltd.

Only one witness per tenderer will be allowed during opening of tenders. This is in compliance with the GoK guidelines on Covid -19 pandemic management.

Numerical Machining Complex reserves the right to terminate the procurement proceedings, at any time without entering into a contract in accordance with Section 63 of the PPADA, 2015.

Managing Director

SECTION II - INSTRUCTIONS TO TENDERERS

2.1 Eligible Tenderers

- 2.1.1 This Invitation for Tenders is open to all tenderers eligible as described in the Appendix to Instructions to Tenderers. Successful tenderers shall complete the supply, install, test, train and commissioning of the equipment by the intended completion date specified in the tender documents.
- 2.1.2 The procuring entity's employees, committee members, board members and their relative (spouse and children) are not eligible to participate in the tender unless where specially allowed under section 131 of the Act.
- 2.1.3 Tenderers shall provide the qualification information statement that the tenderer (including all members of a joint venture and subcontractors) is not associated, or have been associated in the past, directly or indirectly, with a firm or any of its affiliates which have been engaged by the Procuring entity to provide consulting services for the preparation of the design, specifications, and other documents to be used for the procurement of the goods under this Invitation for tenders.
- 2.1.4 Tenderers involved in corrupt or fraudulent practices or debarred from participating in public procurement shall not be eligible.

2.2 Eligible Equipment

- 2.2.1 All equipment to be supplied and installed under the contract shall have their origin in eligible source countries.
- 2.2.2 For purposes of this clause, "origin" means the place where the equipment(s) are produced. Goods are produced when, through manufacturing, processing, or substantial and major assembly of components, a commercially-recognized product results that is substantially different in basic characteristics or in purpose or utility from its components
- 2.2.3 The origin of equipment is distinct from the nationality of the tenderer and shall be treated thus in the evaluation of the tender.

2.3 Cost of Tendering

- 2.3.1 The Tenderer shall bear all costs associated with the preparation and submission of its tender, and the procuring entity, will in no case be responsible or liable for those costs, regardless of the conduct or outcome of the tendering process.
- 2.3.2 The price to be charged for the tender document shall not exceed Ksh 1,000.00.
- 2.3.3 The procuring entity shall allow the tenderer to review the tender document free of charge before purchase.

2.4. Contents of Tender Document

- 2.4.1 The tender document comprises the documents listed below and addenda issued in accordance with clause 2.6 of these instructions to tenderers
 - (i) Invitation to Tender
 - (ii) Instructions to Tenderers
 - (iii) General Conditions of Contract
 - (iv) Special Conditions of Contract
 - (v) Schedule of requirements
 - (vi) Technical Specifications
 - (vii) Tender Form and Price Schedules
 - (viii) Tender Security Form
 - (ix) Contract Form
 - (x) Performance Security Form
 - (xi) Bank Guarantee for Advance Payment Form
 - (xii) Manufacturer's Authorization Form
 - (xiii) Confidential Business Questionnaire Form
 - (xiv) Declaration form
 - (xv) Request for Review Form
- 2.4.2 The Tenderer is expected to examine all instructions, forms, terms, and specifications in the tender documents. Failure to furnish all information required by the tender documents or to submit a tender not substantially responsive to the tender documents in every respect will be at the tenderers risk and may result in the rejection of its tender.

2.5 Clarification of Tender Documents

- 2.5.1 A prospective tenderer making inquiries of the tender documents may notify the Procuring entity in writing or by post at the entity's address indicated in the invitation for tenders. The Procuring entity will respond in writing to any request for clarification of the tender documents, which it receives not later than seven (7) days prior to the deadline for the submission of tenders, prescribed by the procuring entity. Written copies of the Procuring entities response (including an explanation of the query but without identifying the source of inquiry) will be sent to all prospective tenderers that have received the tender document.
- 2.5.2 The procuring entity shall reply to any clarifications sought by the tenderer within **3 days** of receiving the request to enable the tenderer to make timely submission of its tender.

2.6 Amendment of Tender Documents

- 2.6.1 At any time prior to the deadline for submission of tender, the procuring entity, for any reason, whether at its own initiative or in response to a clarification requested by a prospective tenderer, may modify the tender documents by issuing an addendum.
- 2.6.2 All prospective tenderers that have obtained the tender documents will be notified of the amendment in writing or by post and will be binding on them.
- 2.6.3 In order to allow prospective tenderers reasonable time in which to take the amendment into account in preparing their tenders, the Procuring entity, at its discretion, may extend the deadline for the submission of tenders.

2.7 Language of Tender

2.7.1 The tender prepared by the tenderer, as well as all correspondence and documents relating to the tender exchange by the tenderer and the Procuring entity, shall be written in English language, provided that any printed literature furnished by the tenderer may be written in another language provided they are accompanied by an accurate English translation of the relevant passages in which case, for purposes of interpretation of the tender, the English translation shall govern.

2.8 Documents Comprising the Tender

- 2.8.1 The tender prepared by the tenderers shall comprise the following components.
 - (a) a Tender Form and a Price Schedule completed in accordance with paragraph 2.9, 2.10 and 2.11 below
 - (b) documentary evidence established in accordance with paragraph 2.12 that the tenderer is eligible to tender and is qualified to perform the contract if its tender is accepted;
 - (c) documentary evidence established in accordance with paragraph 2.13 that the goods and ancillary services to be supplied by the tenderer are eligible goods and services and conform to the tender documents; and
 - (d) tender security furnished in accordance with paragraph 2.14
 - (e) Confidential Business Questionnaire

2.9 Tender Form

2.9.1 The tenderer shall complete the Form of Tender and the appropriate Price Schedule furnished in the tender documents, indicating the equipment to be supplied, installed and commissioned and a brief description of the equipment, their country of origin, quantity, and prices.

2.10 Tender Prices

- 2.10.1 The tenderer shall indicate on the appropriate Price Schedule the unit prices where applicable and total tender price of the equipment and installation it proposes to supply under the contract.
- 2.10.2 Prices indicated on the Price Schedule shall be entered separately in the following manner:
 - (i) the price of the equipment quoted EXW (ex works, ex factory, ex warehouse, ex showroom, or off-the-shelf, as applicable), including all customs duties and sales and other taxes already paid or payable:
 - (ii) charges for inland transportation, insurance, and other local costs incidental to delivery of the goods to their final destination; and
 - (iii) installation charges shall also be indicated separately for each equipment
- 2.10.3 Prices quoted by the tender shall remain fixed during the Tender's performance of the contract. **A tender submitted with an adjustable price quotation will be treated** as non-responsive and will be rejected, pursuant to paragraph 2.22 unless otherwise agreed by the parties.

2.11 Tender Currencies

- 2.11.1 Prices shall be quoted in the following currencies:
 - (a) For equipment that the tenderer will supply from within Kenya, the prices shall be quoted in Kenya Shillings; and
 - (b) For equipment that the tenderer will supply from outside Kenya, the prices may be quoted in US Dollars or in another freely convertible currency.
 - (c) Cost of installation and commissioning will be in Kenya Shillings.

2.12 Tenderers Eligibility and Qualifications

- 2.12.1 Pursuant to paragraph 2.1. the tenderers shall furnish, as part of its tender, documents establishing the tenderers eligibility to tender and its qualifications to perform the contract if its tender is accepted.
- 2.12.1 The documentary evidence of the tenderers eligibility to tender shall establish to the Procuring entity's satisfaction that the tenderer, at the time of submission of its tender, is from an eligible source country as defined under paragraph 2.1
- 2.12.2 The documentary evidence of the tenderes qualifications to perform the contract if its tender is accepted shall establish to the Procuring entity's satisfaction;
 - (a) that, in the case of a tenderer offering to supply equipment under the contract which the tenderer did not manufacture or otherwise produce, the tenderer has been duly authorized by the equipment, Manufacturer or producer to supply the equipment
 - (b) that the tenderer has the financial, technical, and production capability necessary to perform the contract;
 - (c) that, in the case of a tenderer not doing business within Kenya, the tenderer is or will be (if awarded the contract) represented by an Agent in Kenya equipped, and able to carry out the Tenderer's maintenance, repair, and spare parts-stocking obligations prescribed in the Conditions of Contract and/or Technical Specifications.

2.13 Goods Eligibility and Conformity to Tender Document

- 2.13.1 Pursuant paragraph 2.2 of this section, the tenderer shall furnish, as part of its tender documents establishing the eligibility and conformity to the tender documents of all equipment which the tenderer proposes to supply under the contract
- 2.13.2 The documentary evidence of the eligibility of the goods shall consist of statement in the Price Schedule of the country of origin of the goods and

services offered which shall be confirmed by a certificate of origin issued at the time of shipment.

- 2.13.3 The documentary evidence of conformity of the equipment to the tender documents may be in the form of literature, drawings, and data, and shall consist of:
 - a) a detailed description of the essential technical and performance characteristic of the equipment
 - b) a list giving full particulars, including available source and current prices of spare parts, special tools, etc., necessary for the proper and continuing functioning of the equipment for a period of two (2) years, following commencement of the use of the equipment by the Procuring entity; and
 - c) a clause-by-clause commentary on the Procuring entity's Technical Specifications demonstrating substantial responsiveness of the goods and service to those specifications, or a statement of deviations and exceptions to the provisions of the Technical Specifications.
- 2.13.4 For purposes of the commentary to be furnished pursuant to paragraph 2.13.3(c) above, the tenderer shall note that standards for workmanship, material, and equipment, as well as references to brand names or catalogue numbers designated by the Procurement entity in its Technical Specifications, are intended to be descriptive only and not restrictive. The tenderer may substitute alternative standards, brand names, and/or catalogue numbers in its tender, provided that it demonstrates to the Procurement entity's satisfaction that the substitutions ensure substantial equivalence to those designated in the Technical Specifications.

2.14 Tender Security

- 2.14.1 The tenderer shall furnish, as part of its tender, a tender security for the amount and form specified in the Appendix to Instructions to Tenderers.
- 2.14.2 The tender security shall be in the amount not exceeding 2 percent of the tender price.
- 2.14.3 The tender security is required to protect the Procuring entity against the risk of Tenderer's conduct which would warrant the security's forfeiture, pursuant to paragraph 2.14.7
- 2.14.4 The tender security shall be denominated in Kenya Shillings or in another freely convertible currency, and shall be in the form of

- a) Cash
- b) A bank guarantee
- c) Such insurance guarantee approved by the Authority
- d) Letter of credit.
- 2.14.5 Any tender not secured in accordance with paragraph 2.14.1 and 2.14.3 will be rejected by the Procuring entity as non responsive, pursuant to paragraph 2.22
- 2.14.6 Unsuccessful Tenderer's tender security will be discharged or returned as promptly as possible but not later than thirty (30) days after the expiration of the period of tender validity prescribed by the Procuring entity.
- 2.14.7 The successful Tenderer's tender security will be discharged upon the tenderer signing the contract, pursuant to paragraph 2.27 and furnishing the performance security, pursuant to paragraph 2.28
- 2.14.8 The tender security may be forfeited:
 - a) if a tenderer withdraws its tender during the period of tender validity specified by the procuring entity on the Tender Form; or
 - b) in the case of a successful tenderer, if the tenderer fails:
 - i) to sign the contract in accordance with paragraph 2.27
 - ii) to furnish performance security in accordance with paragraph 2.28 c) If the tenderer rejects correction of an arithmetic error in the tender.

2.15 Validity of Tenders

- 2.15.1 Tenderers shall remain valid for **90** days or as specified in the tender documents after date of tender opening prescribed by the Procuring entity, pursuant to paragraph 2.20. A tender valid for a shorter period shall be rejected by the Procuring entity as non responsive.
- 2.15.2 In exceptional circumstances, the Procuring entity may solicit the Tenderer's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. The tender security provided under paragraph 2.14 shall also be suitably extended. A tenderer may refuse the request without forfeiting its tender security. A tenderer granting the request will not be required nor permitted to modify its tender.

2.16 Format and Signing of Tender

- 2.16.1 The Tenderer shall prepare two copies of the tender, clearly marking each "ORIGINAL TENDER" and "COPY OF TENDER," as appropriate. In the event of any discrepancy between them, the original shall govern.
- 2.16.2 The original and all copies of the tender shall be typed or written in indelible ink and shall be signed by the tenderer or a person or persons duly authorized to bind the tenderer to the contract. All pages of the tender, except for unamended printed literature, shall be initialed by the person or persons signing the tender.
- 2.16.3 The tender shall have no interlineations, erasures, or overwriting except as necessary to correct errors made by the tenderer, in which case such corrections shall be initialed by the person or persons signing the tender.

2.17 Sealing and Marking of Tenders

- 2.17.1 The Tenderer shall seal the original and each copy of the tender in separate envelopes, duly marking the envelopes as "ORIGINAL" and "COPY." The envelopes shall then be sealed in an outer envelope.
- 2.17.2 The inner and outer envelopes shall:
- (a) be addressed to the Procuring entity at the address given on he Invitation to Tender.
- (b) bear the tender number and name in the Invitation to Tender and the words "DO NOT OPEN BEFORE (14th September, 2020 at 11:00am.
- 2.17.3 The inner envelopes shall also indicate the name and address of the tenderer to enable the tender to be returned unopened in case it is declared "late".
- 2.17.4 If the outer envelope is not sealed and marked as required by paragraph 2.17.2, the Procuring entity will assume no responsibility for the tender's misplacement or premature opening.

2.18 Deadline for Submission of Tenders

- 2.18.1 Tenders must be received by the Procuring entity at the address specified under paragraph 2.17.2 not later than **14**th **September**, **2020 at 11:00am**.
- 2.18.2 The Procuring entity may, at its discretion, extend this deadline for the submission of tenders by amending the tender documents in accordance with

paragraph 2.6, in which case all rights and obligations of the Procuring entity and candidates previously subject to the deadline will therefore be subject to the deadline as extended

2.18.3 Bulky tenders which will not fit in the tender box shall be received by the procuring entity as provided for in the Appendix.

2.19 Modification and Withdrawal of Tenders

- 2.19.1 The tenderer may modify or withdraw its tender after the tender's submission, provided that written notice of the modification, including substitution or withdrawal of the tenders, is received by the Procuring entity prior to the deadline prescribed for submission of tenders.
- 2.19.2 The Tenderer's modification or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of paragraph 2.17. A withdrawal notice may also be sent by cable, telex but followed by a signed confirmation copy, postmarked not later than the deadline for submission of tenders.
- 2.19.3 No tender may be modified after the deadline for submission of tenders.
- 2.19.4 No tender may be withdrawn in the interval between the deadline for submission of tenders and the expiration of the period of tender validity specified by the tenderer on the Tender Form. Withdrawal of a tender during this interval may result in the Tenderer's forfeiture of its tender security, pursuant to paragraph 2.14.7

2.20 Opening of Tenders

2.20.1 The Procuring entity will open all tenders in the presence of tenderers' representatives who choose to attend, on 14th September, 2020 at 11:00am at Numerical Machining Complex Ltd , Parking Area.

The tenderers' representatives who are present shall sign a tender opening register evidencing their attendance.

- 2.20.2 The tenderers' names, tender modifications or withdrawals, tender prices, discounts and the presence or absence of requisite tender security and such other details as the Procuring entity, at its discretion, may consider appropriate, will be announced at the opening.
- 2.20.3 The Procuring entity will prepare minutes of the tender opening.

2.21 Clarification of Tenders

- 2.21.1 To assist in the examination, evaluation and comparison of tenders the Procuring entity may, at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the response shall be in writing, and no change in the prices or substance of the tender shall be sought, offered, or permitted.
- 2.21.2 Any effort by the tenderer to influence the Procuring entity in the Procuring entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderers' tender.

2.22 Preliminary Examination and Responsiveness

- 2.22.1 The Procuring entity will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the tenders are generally in order.
- 2.22.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures the amount in words will prevail
- 2.22.3 The Procuring entity may waive any minor informality or non-conformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or effect the relative ranking of any tenderer.
- 2.22.4 Prior to the detailed evaluation, pursuant to paragraph 2.23 the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one, which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.
- 2.22.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the non conformity.

2.23 Conversion to Single Currency

2.23.1 Where other currencies are used, the Procuring Entity will convert those currencies to Kenya Shillings using the selling exchange rate on the date of tender closing provided by the Central Bank of Kenya.

2.24 Evaluation and Comparison of Tenders

- 2.24.1 The Procuring entity will evaluate and compare the tenders which have been determined to be substantially responsive, pursuant to paragraph 2.22
- 2.24.2 The Procuring entity's evaluation of a tender will exclude and not take into account
 - (a) in the case of equipment manufactured in Kenya or equipment of foreign origin already located in Kenya, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the tenderer; and
 - (b) any allowance for price adjustment during the period of execution of the contract, if provided in the tender.
- 2.24.3 The comparison shall be of the ex-factory/ex-warehouse/off-the-shelf price of the goods offered from within Kenya, such price to include all costs, as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods.
- 2.24.4 The Procuring entity's evaluation of a tender will take into account, in addition to the tender price and the price of incidental services, the following factors, in the manner and to the extent indicated in paragraph 2.23.5 and in the technical specifications:
 - (a) delivery and installation schedule offered in the tender;
 - (b) deviations in payment schedule from the specifications in the Special Conditions of Contract;
 - (c) the cost of components, mandatory spare parts and service;
 - (d) the availability in Kenya of spare parts and after-sales service for the equipment offered in the tender;
- 2.24.5 Pursuant to paragraph 2.24.4 the following evaluation methods will be applied
- (a) Delivery schedule
 - (i) The Procuring entity requires that the equipment under the Invitation for Tenders shall be delivered at the time specified in the Schedule of Requirements. Tenders offering deliveries longer than the procuring entity's required delivery time will be treated as non-responsive and rejected.

(b) Deviation in payment schedule

Tenderers shall state their tender price for the payment of schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

(c) Spare parts and after sales service facilities

Tenderers must offer items with service and spare parts back-up. Documentary evidence and locations of such back-up must be given. Where a tenderer offers items without such back-up in the country, he must give a documentary evidence and assurance that he will establish adequate back-up for items supplied.

- 2.24.6 The tender evaluation committee shall evaluate the tender within 30 days of the validity period from the date of opening the tender.
- 2.24.7 Preference where allowed in the evaluation of tenders shall not exceed 15%

2.25 Contacting the Procuring Entity

- 2.25.1 Subject to paragraph 2.21 no tenderer shall contact the Procuring entity on any matter related to its tender, from the time of the tender opening to the time the contract is awarded.
- 2.25.2 Any effort by a tenderer to influence the Procuring entity in its decisions on tender, evaluation, tender comparison, or contract award may result in the rejection of the Tenderer's tender.

2.26 Award of Contract

(a) **Post-Qualification**

- 2.26.1 In the absence of pre-qualification, the Procuring entity will determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.
- 2.26.2 The determination will take into account the tenderer financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 2.12.3 as well as such other information as the Procuring entity deems necessary and appropriate.

2.26.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer's tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

(b) Award Criteria

- 2.26.4 The Procuring entity will award the contract to the successful tenderer(s) whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.
- 2.26.5 To qualify for contract awards, the tenderer shall have the following:
 - a) Necessary qualifications, capability experience, services, equipment and facilities to provide what is being procured.
 - b) Legal capacity to enter into a contract for procurement
 - c) Shall not be insolvent, in receivership, bankrupt or in the process of being wound up and is not the subject of legal proceedings relating to the foregoing.
 - d) Shall not be debarred from participating in public procurement.

(c) Procuring Entity's Right to Accept or Reject Any or All Tenders

- 2.26.6 The Procuring entity reserves the right to accept or reject any tender, and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby incurring any liability to the affected tenderer or tenderer of the grounds for the procuring entity's action
- 2.26.7 The procuring entity may at any time terminate procurement proceedings before contract award and shall not be liable to any person for the termination
- 2.26.8 The procuring entity shall give prompt notice of the termination to the tenderers and on request give its reasons for termination within 14 days of receiving the request from any tenderer.
- 2.26.9 A tenderer who gives false information in the tender document about is qualification or who refuses to enter into a contract after notification of contract award shall be considered for debarment from participating in future public procurement.

2.27 Notification of Award

- 2.27.1 Prior to the expiration of the period of tender validity, the Procuring entity will notify the successful tenderer in writing that its tender has been accepted.
- 2.27.2 The notification of award will signify the formation of the Contract but will have to wait until the contract is finally signed by both parties. Simultaneous other tenderers shall be notified that their tenders have not been successful.
- 2.27.3 Upon the successful Tenderer's furnishing of the performance security pursuant to paragraph 2.29, the Procuring entity will simultaneously inform the other tenderers that this tenderrs have not been successful

2.28 Signing of Contract

- 2.28.1 At the same time as the Procuring entity notifies the successful tenderer that its tender has been accepted, the procuring entity will simultaneously inform the other tenderers that their tenders have not been successful.
- 2.28.2 Within fourteen (14) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to the Procuring entity.
- 2.28.3 The parties to the contract shall have it signed within 30 days from the date of notification of contract award unless there is an administrative review request.

2.29 Performance Security

- 2.29.1 Within Thirty (30)days of the receipt of notification of award from the Procuring entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to the Procuring entity.
- 2.29.2 Failure of the successful tenderer to comply with the requirements of paragraph 2.28 or paragraph 2.29 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated Candidate or call for new tenders.

2.30 Corrupt or Fraudulent Practices

- 2.30.1 The procuring entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. A tenderer shall sign a declaration that he has and will not be involved in corrupt or fraudulent practices.
- 3.30.2 The Procuring entity will reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question.
- 3.30.3 Further a tenderer who is found to have indulged in corrupt or fraudulent practices risks being debarred from participating in public Procurement in Kenya.

APPENDIX TO INSTRUCTIONS TO TENDERERS

The following information regarding the particulars of the tender shall complement supplement or amend the provisions of the instructions to tenderers. Wherever there is a conflict between the provision of the instructions to tenderers and the provisions of the appendix, the provisions of the appendix herein shall prevail over those of the instructions to tenderers.

INSTRUCTIONS TO TENDERERS REFERENCE	PARTICULARS OF APPENDIX TO INSTRUCTIONS TO TENDERS
2.1.1	This tender is an Open National Tender for all qualified candidates
2.5.1	Clarifications may be requested not later than SEVEN (7) days before the submission date. Email: supplies@nmc.go.ke
2.14.1	Tender security of Kshs 50,000.00 valid for 90 days from the date of opening the tender from a Commercial Bank registered in Kenya.
2.16.1	Bidders MUST submit two copies of the tender document, clearly marking each "ORIGINAL TENDER".
2.18.1	The tender will be closed on 14th September, 2020 at 11:00am.
2.18.1	Tenders will be opened in the presence of bidders who choose to attend on 14th September, 2020 at 11:00am at Numerical Machining Complex, Workshop Rd, parking area.
2.29.1	Performance Security is 10% of contract sum in form of Bank guarantee from a Commercial Bank registered in Kenya.
2.27.2	For greater certainty, a notification of intention to enter into a contract does not constitute a contract nor reduce the validity period of the tender security.

A) MANDATORY SPECIFICATIONS

No.	Criteria	Yes	No
1.	Bidder MUST submit two sets of tender documents clearly		
	marked ORIGINAL & COPY		
2.	Bidder MUSTprovide tender security of Kshs 50,000.00 from a Commercial Bank and valid for 90 days		
3.	The bidder MUST be accredited by ICT Authority		
4.	Bidder MUST provide Litigation history in the format provided in the Tender document, must be filled, signed and stamped to be returned with tender submission. (Form A.)		
5.	Bidder Must Dully fill, sign and stamp price schedule		
6.	Bidder MUST Duly fill, sign and stamped form of Tender		
7.	Bidder must paginate/serialize all the documents in the tender document in a continous manner without alteration		
8.	Bidder MUST duly fill, stamp and sign the confidential business questionnaire.		
9.	Bidder MUST provide copy of valid tax compliance issued by Kenya Revenue Authority		
10.	Bidder MUST provide Copy of Certificate of Incorporation or a Certificate of Registration		
11.	Bidder MUST provide Copy of valid Business permit from the County Government		
12.	Bidder MUST provide Copy of CR 12		
14.	Bidder MUST provide Power of Attorney		
15.	Bidder MUST provide recommendation letters from three (3) clients whom he/she have supplied, Installed and commissioned a similar equipment		
16.	Bidder MUST attach Certified Audited Financial Statement for the last 3-consecutive years.		
17.	Bidder MUST attach a duly signed and stamped form by ICT as proof of site visit scheduled to take place on 8 th September , 2020 at 11:00am at Numerical Machining Complex Ltd.		
18.	Bidder MUST be licenced by Communication Authority of Kenya under Class D (<i>This applies to CCTV system only</i>)		
19.	Bidder MUST provide a manufacturers authorization / Dealership certificate (This applies to Network Security Firewall only)		

Bidders who meet all the mandatory requirements will qualify to proceed to technical evaluation for each equipment.

B1. Technical Evaluation for Network Security Firewall (Pass mark 90% of 105 marks i.e 94.5

4.1 Interface Modes L2, L3, tap, virtual wire 6 1	4. Networking Features			
	4 1 T. 4 C M - 1 T O T O		_	
(transparent mode)		6	1	

4.2 Routing OSPFv2/v3 with graceful restart, BGP with graceful restart, RIP, static routing, Policybased forwarding, Point-to-Point Protocol over Ethernet (PPPoE), Multicast: PIM-SM, PIM-SSM, IGMP v1, v2 and v3		1	
4.3 IPsec VPN, Key exchange: manual key, IKEv1, and IKEv2 (pre-shared key, certificate- based authentication), Encryption: 3DES, AES (128-bit, 192-bit, 256-bit), Authentication: MD5, SHA-1, SHA-256, SHA-384, SHA-512		1	
4.4 VLANs: 802.1Q VLAN tags per device/per interface: 4,094/4,094		1	
4.5 Network Address Translation: NAT modes (IPv4): static IP, dynamic IP, dynamic IP and port (port address translation), NAT64, NPTv6; Additional NAT features: dynamic IP reservation, tunable dynamic IP and port oversubscription		1	
4.6 High Availability, Modes: active/active, active/passive; Failure detection: path monitoring, interface monitoring		1	
5. Hardware Specifications	11		
5.1 I/O (input/output): (4) 10/100/1000, (8) Gigabit SFP		1	
5.2 Management I/O (1(1) 10/100/1000 out-of-band management port		2	
(2) 10/100/1000 high availability port			
(1) RJ-45 console port			
(1) USB port & (1) Micro USB Console Port			
5.3 The proposed firewalls must have 240 GB SSD for logs		1	
5.4 Max BTU/hr: 256		1	
5.5 Safety: cCSAus, CB		1	
5.6 Weight (Stand-Alone Device/As Shipped): Less than 3 kg		1	
5.7 EMI: FCC Class B, CE Class B, VCCI Class B		1	
5.8 Airflow: Front to back		1	
5.9 Certifications: SOC2, FedRAMP, Common Criteria, FIPS 140-2, NCSC Foundation Grade Certification, ANSSI top-level certification, USGV6, ICSA, NEBS		1	
5.10 Environment: Operating temperature: 32° to 104° F, 0° to 40° C; Non-operating temperature: -4° to 158° F, -20° to 70° C Passive cooling		1	
6. Operation Mode	24		
6.1 The proposed firewalls shall support policy-based Network Address Translation (NAT) and Port Address		1	

Translation (PAT) and able to operate in routing/NAT		
mode.		
6.2 The proposed firewalls shall support Domain Name	1	
System (DNS) proxy and Dynamic Host Configuration		
Protocol for IPv6 (DHCPv6) relay		
6.3 The proposed firewalls shall support IPv6 routing for	1	
virtual routers.		
6.4 QoS Policy-based traffic shaping (priority, guaranteed,	1	
maximum)		
6.5 QoS Policy-based on application category,	1	
users/groups or any combination		
6.6 The proposed firewalls shall support in-box logging and	1	
reporting mechanism to generate comprehensive		
reports like "but not limited to" (User Activity Reports,		
Top Applications, Top Attackers, Top victims,		
Applications running in port 80)		
6.7 The proposed firewall shall support real time	1	
interactive graphical dashboard to highlight high risky		
applications, suspicious app-centric content and users		
6.8 The proposed firewall must have the ability to schedule	1	
PDF report generation and send it over		
6.9 Should Integrate user-identification allowing Active	1 1	
Directory groups, and specific users to access a		
particular application, while denying others		
6.10 Should Integrate user-identification allowing	1	
RADIUS groups, or users to access a particular		
application, while denying others		
6.11 Should support XML API that would allow the	1	
firewall to be integrated with any known NAC, and		
WLAN controllers for user identification		
6.12 Should support Syslog Receiver feature that would	1	
allow the firewall to be integrated with any known NAC,		
and WLAN controllers for user identification		
6.13 Should identify at least 2000+ commercial	1	
applications		
6.14 The firewall should be capable of identifying and	1	
optionally preventing the transfer of various files (i.e.		
MS Office, PDF, etc.) via identified applications (i.e.		
P2P, IM, SMB, etc.)		
6.15 Tap Mode, Layer 2, and Layer3 (should be	1	
supported in the same virtual system at the same time)		
6.16 The firewall should take decision based on different	1	
matching parameters not based on layer4 parameters.		
It should be based on applications, URL categories,		
device state, IP addresses, security zones,		
username/group(s)		
6.17 Policies based on port-and-protocol And Application	1	
as the match criteria (application decision should not		
be done separately)		
6.18 Policy-based control by URL category - as a policy	1	
matching criterion		
6.19 Policy-based control by user, group or IP address	1	
(user control should be flexible to support a single user		
not only AD groups)		

	1		 1
6.20 Block files by type: bat, cab, dll, exe, pdf, and reg		1	
6.21 Support Geographical Location policy in a security		1	
rule, where connections going to a country or countries can be blocked			
6.22 Policy support of IPv6 rules/objects, multicast		1	
rules/objects, scheduled time of day enablement		_	
6.23 Should support XML API that would allow the		1	
firewall to be integrated with any known NAC, and			
WLAN controllers for user identification			
6.24 Should Integrate user-identification allowing		1	
RADIUS groups, or users to access a particular application, while denying others			
7. Data Filtering:	7		
7. Data Fittering.		_	
7.1 Files should be identified by file types or by signature		1	
7.2 The firewall should be capable of identifying and		1	
optionally preventing the transfer of various files (i.e. MS Office, PDF, etc.) via identified applications (i.e.			
P2P, IM, SMB, etc.)			
7.3 Compressed information stored in zipped files should		1	
be able to be unpacked and filtered per policy			
7.4 The firewall should be capable of identifying and		1	
optionally preventing the transfer of files containing			
sensitive information (i.e. credit card numbers) via regular expression			
7.5 Should not have any file size limitation in checking		1	
content for keywords		_	
7.6 The platform should be capable to enforce file blocking		1	
on different applications running on same L4 session		-	
7.7 Control Drive-By Download (Files which are downloaded/transferred via web applications without		1	
knowledge of the user - it might have an exploit that			
can attack end user's workstation)			
8. User Identification:	14		
Should support the following authentication services for		1	
user-identification: -			
8.1 Active Directory		1	
8.2 Exchange		1	
		1	
8.3 LDAP		1	
8.4 eDirectory			
8.5 Radius		1	
8.6 Karberos		1	
8.7 Client Certificate		1	
			i e

8.8 Captive Portal		1	
8.9 Terminal Server		1	
8.10 Supports the creation of security policies based on Active Directory Users and Groups in addition to source/destination IP		1	
8.11 Users from Citrix and terminal services environments should be supported in policy and logs		1	
8.12 Populate all logs with user identity (traffic, IPS, URL, data, etc.)		1	
8.13 Logged user-identification correlated in real-time		1	
9. Technical Certification:			
9.1 Qualifications of Key Technical Staff to be deployed in NMC's assignment A Technical Personnel certified on the proposed NGFW System	15		
9.1.1 Two Degree holders in support(Degree in IT or related field) 9.1.2 Diploma holder in IT related field		10 2	
9.1.3 Personnel Certified in proposed NGFW System		3	
10. Warranty Period, Support and License Renewals must provide	1		
10.1 At least One (1) Year Warranty		1	
11. Support:	3		
7.1 To provide Full access to the online support portal and 24 x 7 x 365 phone and email support. Additional elements to include full access to software fixes, features releases, and onsite support		3	
TOTAL MARKS	100	100	

Bidder(s) who scores at least 94.5/105 marks (90%) will proceed to the financial evaluation

NB. Convert the marks to 80 as follows: Bidders marks \times 80 105

B2. Technical Evaluation for CCTV System

	SPECIFICATION	REQUIREMENT	TENDERER TO SPECIFY	SCORES

25.6. Automatic report scheduler and mailer.		2	
25.7. Report layout tool (for clients do design the reports).		2	
25.8. Integration to various ERPs (e.g SAP, SAGE, EBIZ, PEOPLE SOFT & Third-party payroll)		2	
25.9. Can be integrated with 3rd party for attendance data.		2	
26. Technical Support	8		
26.1. Any staff certified in IT e.g Networking or User Support.		4	
26.2. One staff certified to support the proposed system		4	
27. Warranty Period, Support and License Renewals must provide	4		
27.1. At least One (1) Year Warranty		4	
TOTAL SCORED	95	95	

Bidder(s) who scores at least 90/100 marks (90%) will proceed to the financial evaluation

NB. Convert the marks to 80 as follows: Bidders marks \times 80 100

C. Financial Evaluation (20) marks - Pass mark of 15marks

No.	Criteria	Total Score (Max Score)	Bidder's Score
1.	Minimum Sales annual turnover of Kshs 10,000,000.00 (5marks)		
2.	Current ratio (current Assets / current liabilities) Must be ≥ 1		
3.	Net working Capital ratio (current Assets-current liabilities)/current liabilities Must be >1		
4.	Cash Ratio (Cash & Cash equivalents)/current liabilities Must be ≥ 0.5		

Award Criteria

For Each Equipment the tender will be awarded to the bidder who meet all the mandatory requirements, scores at least 90% of the technical evaluation marks i.e 72/80 score at least 15marks out 20marks of the financial evaluation and is the tenderer with the lowest evaluated price for the equipment.

Summary of Evaluation Criteria for Each Equipment

No.	Evaluation Criteria	Max Marks	Pass mark
1.	Mandatory Requirements	Yes	Yes
2.	Technical Evaluation (Marks have been converted to 80%)	80	72
3.	Financial Evaluation	20	15

SECTION III - GENERAL CONDITIONS OF CONTRACT

3.1 **Definitions**

- 3.1.1 In this Contract, the following terms shall be interpreted as indicated:-
 - (a) "The Contract" means the agreement entered into between the Procuring entity and the tenderer, as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
 - (b) "The Contract Price" means the price payable to the tenderer under the Contract for the full and proper performance of its contractual obligations
 - (c) "The Goods" means all of the equipment, machinery, and/or other materials, which the tenderer is required to supply to the Procuring entity under the Contract.
 - (d) "The Procuring entity" means the organization purchasing the Goods under this Contract.
 - (e) "The Tenderer' means the individual or firm supplying the Goods under this Contract.

3.2 Application

3.2.1 These General Conditions shall apply in all Contracts made by the Procuring entity for the procurement installation and commissioning of equipment to the extent that they are not superceded by provisions of other part of contract.

3.3 **Country of Origin**

- 3.3.1 For purposes of this clause, "Origin" means the place where the Goods were mined, grown or produced.
- 3.3.2 The origin of Goods and Services is distinct from the nationality of the tenderer and will be treated thus in the evaluation of the tender.

3.4 Standards

3.4.1 The Goods supplied under this Contract shall conform to the standards mentioned in the Technical Specifications.

3.5 Use of Contract Documents and Information

3.5.1 The Candidate shall not, without the Procuring entity's prior written consent, disclose the Contract, or any provision therefore, or any specification, plan, drawing, pattern, sample, or information furnished by

- or on behalf of the Procuring entity in connection therewith, to any person other than a person employed by the tenderer in the performance of the Contract.
- 3.5.2 The tenderer shall not, without the Procuring entity's prior written consent, make use of any document or information enumerated in paragraph 3.5.1 above
- 3.5.3 Any document, other than the Contract itself, enumerated in paragraph 3.5.1 shall remain the property of the Procuring entity and shall be returned (all copies) to the Procuring entity on completion of the Tenderer's performance under the Contract if so required by the Procuring entity

3.6 Patent Rights

3.6.1 The tenderer shall indemnify the Procuring entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the Goods or any part thereof in the Procuring entity's country

3.7 **Performance Security**

- 3.7.1 Within twenty eight (28) days of receipt of the notification of Contract award, the successful tenderer shall furnish to the Procuring entity the performance security where applicable in the amount specified in Special Conditions of Contract.
- 3.7.2 The proceeds of the performance security shall be payable to the Procuring entity as compensation for any loss resulting from the Tenderer's failure to complete its obligations under the Contract.
- 3.7.3 The performance security shall be denominated in the currency of the contract, or in a freely convertible currency acceptable to the procuring entity and shall be in the form of
 - a) Cash
 - b) Bank guarantee
 - c) Such insurance guarantee approved by the Authority
 - d) Letter of credit
- 3.7.4 The performance security will be discharged by the Procuring entity and returned t the Candidate not late than thirty (30) days following the date of completion of the Tenderer's performance obligations under the Contract, including any warranty obligations, under the Contract

3.8 Inspection and Tests

- 3.8.1 The Procuring entity or its representative shall have the right to inspect and/or to test the equipment to confirm their conformity to the Contract specifications. The Procuring entity shall notify the tenderer in writing in a timely manner, of the identity of any representatives retained for these purposes.
- 3.8.2 The inspections and tests may be conducted in the premises of the tenderer. All reasonable facilities and assistance, including access to drawings and production data, shall be furnished to the inspectors at no charge to the Procuring entity.
- 3.8.3 Should any inspected or tested equipment fail to conform to the Specifications, the Procuring entity may reject the equipment, and the tenderer shall either replace the rejected equipment or make alterations necessary to make specification requirements free of costs to the Procuring entity.
- 3.8.4 The Procuring entity's right to inspect test and where necessary, reject the equipment after the equipment arrival and installation shall in no way be limited or waived by reason of the equipment having previously been inspected, tested and passed by the Procuring entity or its representative prior to the equipment delivery.
- 3.8.5 Nothing in paragraph 3.8 shall in any way release the tenderer from any warranty or other obligations under this Contract.

3.9 Packing

- 3.9.1 The tenderer shall provide such packing and packaging of the equipment as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the Contract.
- 3.9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the Contract

3.10 **Delivery and Documents**

3.10.1 Delivery of the equipment, documents and installation of the same shall be made by the tenderer in accordance with the terms specified by Procuring entity in its Schedule of Requirements and the Special Conditions of Contract

3.11 Insurance

3.11.1 The equipment supplied under the Contract shall be fully insured against loss or damage incidental to manufacturer or acquisition, transportation, storage, and delivery in the manner specified in the Special conditions of contract.

3.12 Payment

- 3.12.1 The method and conditions of payment to be made to the tenderer under this Contract shall be specified in Special Conditions of Contract
- 3.12.2 Payments shall be made promptly by the Procuring entity as specified in the contract

3.13 Prices

- 3.13.1 Prices charged by the tenderer for equipment delivered and installation performed under the Contract shall not, with the exception of any price adjustments authorized in Special Conditions of Contract, vary from the prices by the tenderer in its tender.
- 3.13.2 Contract price variations shall not be allowed for contracts not exceeding one year (12 months)
- 3.13.3 Where contract price variation is allowed, the variation shall not exceed 10% of the original contract price.
- 3.13.4 Price variation requests shall be processed by the procuring entity within 30 days of receiving the request.

3.14. Assignment

The tenderer shall not assign, in whole or in part, its obligations to perform under this Contract, except with the Procuring entity's prior written consent

3.15. Subcontracts

3.15.1 The tenderer shall notify the Procuring entity in writing of all subcontracts awarded under this Contract if not already specified in the tender. Such notification, in the original tender or later, shall not relieve the tenderer from any liability or obligation under the Contract

3.16. Termination for Default

- 3.16.1 The Procuring entity may, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the tenderer, terminate this Contract in whole or in part
 - (a) if the tenderer fails to deliver any or all of the equipment within the period9s) specified in the Contract, or within any extension thereof granted by the Procuring entity
 - (b) if the tenderer fails to perform any other obligation(s) under the Contract
 - (c) if the tenderer, in the judgment of the Procuring entity has engaged in corrupt or fraudulent practices in competing for or in executing the Contract
- 3.16.2 In the event the Procuring entity terminates the Contract in whole or in part, it may procure, upon such terms and in such manner as it deems appropriate, equipment similar to those undelivered, and the tenderer shall be liable to the Procuring entity for any excess costs for such similar equipment.

3.17. Termination for convenience

3.18. Liquidated Damages

3.18.1 If the tenderer fails to deliver and/or install any or all of the items within the period(s) specified in the contract, the procuring entity shall, without prejudice to its other remedies under the contract, deduct from the contract prices liquidated damages sum equivalent to 0.5% of the delivered price of the delayed items up to a maximum deduction of 10% of the delayed goods. After this the tenderer may consider termination of the contract.

3.19. Resolution of Disputes

- 3.19.1 The procuring entity and the tenderer shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the contract
- 3.19.2 If, after thirty (30) days from the commencement of such informal negotiations both parties have been unable to resolve amicably a contract dispute, either party may require that the dispute be referred for resolution to the formal mechanisms specified in the SCC.

3.20. Language and Law

3.20.1 The language of the contract and the law governing the contract shall be English language and the Laws of Kenya respectively unless otherwise specified in the SCC

3.21. Force Majeure

3.21.1 The Tenderer shall not be liable for forfeiture of its performance security or termination for default if and to the extent that it's delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

3.22 Notices

- 3.22.1 Any notice given by one party to the other pursuant to this contract shall be sent to other party by post or by fax or Email and confirmed in writing to the other party's address specified.
- 3.22.2 A notice shall be effective when delivered or on the notices effective date, whichever is later.

SECTION IV - SPECIAL CONDITIONS OF CONTRACT

- 4.1 Special Conditions of Contract shall supplement the General Conditions of Contract. Whenever there is a conflict, between the GCC and the SCC, the provisions of the SCC herein shall prevail over these in the GCC.
- 4.2 Special conditions of contract as relates to the GCC

REFERENCE OF GCC	SPECIAL CONDITIONS OF CONTRACT
3.7.1	Performance security of 10%
3.12.1	Payment terms will be as follows: 60% on Supply, Installation and Testing of Equipment
	30% on Training and Commissioning of Equipment
	10% on expiry of the warranty period which begins immediately after commissioning
3.18.1	Disputes to be resolved through arbitration
3.8	The equipment to be inspected in the presence of the tenderer and in the event it is rejected it must be carted away from NMC premises within 21 days failure to which it shall be disposed at the tenderers expense.

SECTION - V- SCHEDULE OF REQUIREMENTS AND PRICES

Notes on Schedule of Requirements and Prices

- 5.1 This contract is for Supply, Installation, Testing, Training and Commissioning of (a) Biometric System (b) Network Security Firewall (c) CCTV System.
- 5.2 The training shall be for Ten (10) technical staff.
- 5.3 The equipment to be supplied, installed, tested, commissioned and staff trained within Two (2) months.
- 5.4 The equipment to be supplied and installed at NMC Premises.
- 5.5 The prices of equipment to comprise the following:

Cost of the equipment, all other applicable taxes, Installation charges, Testing costs, Training Costs and any other local cost incidental to the delivery of the equipment to the final destination.

SCHEDULE OF REQUIREMENTS

A. NETWORK SECURITY FIREWALL

Numerical Machining Complex Ltd would like solicit a potential bidder with better technical capability and reasonable cost for money for the supply, delivery and configuration of Next Generation Firewall as well as providing relevant training for the same. NMC will utilize a firewall appliance (NGFW) for at least 300 Users to allow visibility into the soundness and vitality of the NMC network security solution.

The objective of this project is to upgrade NMC network perimeter security. The new perimeter security design must incorporate the latest technology solutions to enable NMC to protect itself before, during and after a cyber-attack with emphasis on prevention all cyber-attacks.

B. CCTV SYSTEM

Numerical Machining Complex Ltd seeks to secure its premises through the installation of CCTV cameras on its various sites within a one (1) kilometer radius which includes, offices, workshops, foundry, pattern shops and outdoor locations within our premises.

The proposed solution must be compatible with our current environment and include any additional equipment that might be essential to the functionality.

The Company requires a total of 37 cameras installed (16 Dome cameras and 21 Bullet Cameras as tabulated below.

MAIN WORKSHOP AND OFFICES

 Main office parking area – 	1 bullet camera
2. Main entrance and parking gate –	1 bullet camera
3. CNC offices corridor path -	1 bullet camera
4. Workshop main entry –	1 dome camera
5. Delivery entrance -	1 bullet camera
6. Workshop backdoor exit-	1 bullet camera
7. Inside the workshop partition areas -	5 bullet cameras

8. Heat treatment workshop – 1 dome camera

9. Behind the workshop corridor- 1 bullet camera

10. Heavy fabrication workshop - 2 dome cameras

11. Dispatch area and gate- 1 bullet camera

12. Main store – 1 dome camera

4 bullet cameras

FOUNDRY WORKSHOP

13. Main offices corridors-

- 1. Lab area 1 bullet camera
- 2. Lab entrance 1 bullet camera
- 3. Casting rail area 2 bullet camera
- 4. Foundry store and entrance 2 bullet camera
- 5. Galvanizing area 1 bullet camera
- 6. Blasma shop 1 bullet camera
- 7. Core area 1 bullet camera
- 8. Disamatic area 2 bullet camera
- 9. Main generation room 1 bullet camera
- 10. Compressor area 1 bullet camera
- 11. Pattern shop 1 bullet camera
- 12. Behind galvanizing area 2 bullet camera

C. BIOMETRIC SYSTEM

Numerical Machining Complex Ltd seeks to procure a procure a Biometric Attendance Management System plus any required applications and licenses where applicable with one-year support. The system is to be installed at NMC Offices at Workshop Road for the management of attendance and related records.

We hereby invite potential bidders with better technical capability and reasonable cost for money for the supply, delivery, installation, training and commissioning of a biometric attendance management system as per the provided specifications.

The proposed solution must be compatible with our current environment and include any additional equipment that might be essential to the functionality.

It must be a **Multi-media Fingerprint and Attendance terminal** with the following features:

Main Features

- ➤ Automatic attendance management.
- Accelerates payroll processing directly from recording machine.
- ➤ User profile management to ensure a high level of security in system.
- Easy to manage and schedule shifts.
- ➤ Enables tamper-proof, simple & cost effective data collection.
- ➤ Helps to clarify employee attendance discrepancies.
- > Scalable and open system with option to integrate with Payroll, HR, & ERP.
- ➤ Automatically calculates and summarizes worked hours, OT hours, bonus hours, lost hours
- > Client server architecture.
- ➤ Generate reports such as Absenteeism/ presents, Clocking time analysis, Over time Authorized over time, Late arrival, Early departure, Total analysis, Manual modifications Leaves transactions, Due leaves, Leaves Summary reports

Leave Management

- Create paid/un-paid leaves.
- ➤ Monthly leaves accumulation based on yearly quota.
- > Set leaves to carry forward balances, exclude weekly Offs, holidays, etc.
- ➤ Half day leaves.
- Easy to use leave application & printing of application form.

Attendance Processing

Single click processing of the raw attendance data.

- > Allows processing in bulk or individual employees within flexible date range.
- > Option to manually change the timings by authorized users directly from attendance register.
- ➤ Absent tracking with remarks, with permission /without permission.

Overtime Management

- ➤ Automated overtime capture and processing.
- > Restriction based on overtime.
- > Employee wise overtime configuration.
- ➤ Role-based access to overtime approvals.
- Special OT3 and OT4
- Easy overtime authorization flow

Special Features

- Job costing and audit trail.
- > Auto emailer of report.
- > Gate pass.
- > Out station official visit tracking.
- > Warning and termination letters.
- > Automatic report scheduler and mailer.
- Report layout tool (for clients do design the reports).
- > Integration to various ERPs (e.g SAP, SAGE, EBIZ, PEOPLE SOFT & Third party payroll)
- > Can be integrated with 3rd party for attendance data.

Configuration Setup

- Comprehensive employee master.
- Multiple record grouping levels for accurate analysis.
- > Detailed parameters to customize application for specific environment.
- Customizable processing periods.
- Holiday setup as per organization policy.
- Extensive clocking card management.

Communication Module

- > Fully integrated with multiple devices.
- ➤ Multiple technologies can work on the same software, providing flexibility to the user.
- > Auto extracts attendance data from device at scheduled intervals.
- Synchronize with various hardware across multiple locations.
- ➤ Auto integration of download data into application.

Other Features

- ➤ 2000mAh backup battery
- ➤ High-image quality (Face recognition / Retina scan)and fingerprint sensor
- Supports optional GPRS and Wi-Fi
- > TFT display
- Uses TCP/IP communication
- > At least up to 6,000 entries

Training

We recommend training for the User Departments; Human Resource and Administration as well as ICT Department to facilitate User support.

SECTION V - SCHEDULE OF REQUIREMENTS AND PRICES

A.PRICE SCHEDULE FOR NETWORK SECURITY FIREWALL

SECTION VI - TECHNICAL SPECIFICATIONS

6.2 **PARTICULARS**

A. TECHNICAL SPECIFICATIONS FOR NETWORK SECURITY FIREWALL

PLATFORM REQUIREMENT SPECIFICATIONS
28. Highlights
5.6. High availability with active/active and active/passive modes
5.7. Redundant power input for increased reliability
2.4 Classifies all applications, on all ports, all the time
2.4.1 Identifies the application, regardless of port, SSL/SSH encryption, or evasive technique
employed.
2.4.2 Uses the application, not the port, as the basis for all your safe enablement policy
decisions: allow, deny, schedule, inspect, and apply traffic-shaping.
2.4.3 Categorizes unidentified applications for policy control, threat forensics, or App-ID™
technology development.
2.5 Enforces security policies for any user, at any location
2.5.1 Deploys consistent policies to local and remote users running on the Windows®, macOS ®,
Linux, Android®, or Apple iOS platforms.
2.5.2 Enables agentless integration with Microsoft Active Directory® and Terminal Services, LDAP, Novell eDirectory™, and Citrix.
2.5.3 Easily integrates your firewall policies with 802.1X wireless, proxies, network access
control, and any other source of user identity information.
2.6 Prevents known and unknown threats
2.6.1 Blocks a range of known threats—including exploits, malware and spyware—across all
ports, regardless of common evasion tactics employed.
2.6.2 Limits the unauthorized transfer of files and sensitive data, and safely enables non-work-
related web surfing.
2.6.3 Identifies unknown malware, analyzes it based on hundreds of malicious behaviors, and
then automatically creates and delivers protection.
29. Performance and Capacities
5.8 Firewall throughput: 24 Gbps
5.9 Threat Prevention throughput: 3 Gbps
5.10 IPsec VPN throughput: 20 Gbps
5.11 Max sessions: 700,000
5.12 New sessions per second 450,000
5.13 IPsec VPN tunnels/tunnel interfaces: 2,000
5.14 Virtual routers: 5
5.15 Security zones: 30
5.16 Max number of policies: 1500
30. Networking Features

8.3 Interface Modes L2, L3, tap, virtual wire (transparent mode)

- **8.4** Routing OSPFv2/v3 with graceful restart, BGP with graceful restart, RIP, static routing, Policy-based forwarding, Point-to-Point Protocol over Ethernet (PPPoE), Multicast: PIM-SM, PIM-SSM, IGMP v1, v2 and v3
- **8.5** IPsec VPN, Key exchange: manual key, IKEv1, and IKEv2 (pre-shared key, certificate-based authentication), Encryption: 3DES, AES (128-bit, 192-bit, 256-bit), Authentication: MD5, SHA-1, SHA-256, SHA-384, SHA-512
- **8.6** VLANs: 802.1Q VLAN tags per device/per interface: 4,094/4,094
- **8.7** Network Address Translation: NAT modes (IPv4): static IP, dynamic IP, dynamic IP and port (port address translation), NAT64, NPTv6; Additional NAT features: dynamic IP reservation, tunable dynamic IP and port oversubscription
- **8.8** High Availability, Modes: active/active, active/passive; Failure detection: path monitoring, interface monitoring

31. Hardware Specifications

- **5.11** I/O (input/output): (4) 10/100/1000, (8) Gigabit SFP
 - 5.12 Management I/O
 - (1(1) 10/100/1000 out-of-band management port
 - (2) 10/100/1000 high availability port
 - (1) RJ-45 console port
 - (1) USB port & (1) Micro USB Console Port
- **5.13** The proposed firewalls must have 240 GB SSD for logs
- **5.14** Max BTU/hr: 256
- **5.15** Safety: cCSAus, CB
- **5.16** Weight (Stand-Alone Device/As Shipped): Less than 3 kg
- **5.17** EMI: FCC Class B, CE Class B, VCCI Class B
- **5.18** Airflow: Front to back
- **5.19** Certifications: SOC2, FedRAMP, Common Criteria, FIPS 140-2, NCSC Foundation Grade Certification, ANSSI top-level certification, USGV6, ICSA, NEBS
- **5.20** Environment: Operating temperature: 32° to 104° F, 0° to 40° C; Non-operating temperature: -4° to 158° F, -20° to 70° C Passive cooling

32. Operation Mode

- **6.25** The proposed firewalls shall support policy-based Network Address Translation (NAT) and Port Address Translation (PAT) and able to operate in routing/NAT mode.
- **6.26** The proposed firewalls shall support Domain Name System (DNS) proxy and Dynamic Host Configuration Protocol for IPv6 (DHCPv6) relay
- **6.27** The proposed firewalls shall support IPv6 routing for virtual routers.
- **6.28** QoS Policy-based traffic shaping (priority, guaranteed, maximum)
- **6.29** QoS Policy-based on application category, users/groups or any combination
- **6.30** The proposed firewalls shall support in-box logging and reporting mechanism to generate comprehensive reports like "but not limited to" (User Activity Reports, Top Applications, Top Attackers, Top victims, Applications running in port 80...)
- **6.31** The proposed firewall shall support real time interactive graphical dashboard to highlight high risky applications, suspicious app-centric content and users
- **6.32** The proposed firewall must have the ability to schedule PDF report generation and send it over
- **6.33** Should Integrate user-identification allowing Active Directory groups, and specific users to access a particular application, while denying others
- **6.34** Should Integrate user-identification allowing RADIUS groups, or users to access a particular application, while denying others
- **6.35** Should support XML API that would allow the firewall to be integrated with any known NAC, and WLAN controllers for user identification

- **6.36** Should support Syslog Receiver feature that would allow the firewall to be integrated with any known NAC, and WLAN controllers for user identification
- **6.37** Should identify at least 2000+ commercial applications
- **6.38** The firewall should be capable of identifying and optionally preventing the transfer of various files (i.e. MS Office, PDF, etc.) via identified applications (i.e. P2P, IM, SMB, etc.)
- **6.39** Tap Mode, Layer 2, and Layer 3 (should be supported in the same virtual system at the same time)
- **6.40** The firewall should take decision based on different matching parameters not based on layer4 parameters. It should be based on applications, URL categories, device state, IP addresses, security zones, username/group(s)
- **6.41** Policies based on port-and-protocol And Application as the match criteria (application decision should not be done separately)
- **6.42** Policy-based control by URL category as a policy matching criterion
- **6.43** Policy-based control by user, group or IP address (user control should be flexible to support a single user not only AD groups)
- **6.44** Block files by type: bat, cab, dll, exe, pdf, and reg
- **6.45** Support Geographical Location policy in a security rule, where connections going to a country or countries can be blocked
- **6.46** Policy support of IPv6 rules/objects, multicast rules/objects, scheduled time of day enablement
- **6.47** Should support XML API that would allow the firewall to be integrated with any known NAC, and WLAN controllers for user identification
- **6.48** Should Integrate user-identification allowing RADIUS groups, or users to access a particular application, while denying others

33. Data Filtering:

- **8.14** Files should be identified by file types or by signature
- **8.15** The firewall should be capable of identifying and optionally preventing the transfer of various files (i.e. MS Office, PDF, etc.) via identified applications (i.e. P2P, IM, SMB, etc.)
- **8.16** Compressed information stored in zipped files should be able to be unpacked and filtered per policy
- **8.17** The firewall should be capable of identifying and optionally preventing the transfer of files containing sensitive information (i.e. credit card numbers) via regular expression
- **8.18** Should not have any file size limitation in checking content for keywords
- **8.19** The platform should be capable to enforce file blocking on different applications running on same L4 session
- **8.20** Control Drive-By Download (Files which are downloaded/transferred via web applications without knowledge of the user it might have an exploit that can attack end user's workstation)

34. User Identification:

Should support the following authentication services for user-identification: -

- **9.1** Active Directory
- 9.2 Exchange
- **9.3** LDAP
- 9.4 eDirectory
- 9.5 Radius
- 9.6 Karberos
- 9.7 Client Certificate
- 9.8 Captive Portal
- 9.9 Terminal Server
- **9.10** Supports the creation of security policies based on Active Directory Users and Groups in addition to source/destination IP
- **9.11** Users from Citrix and terminal services environments should be supported in policy and logs
- **9.12** Populate all logs with user identity (traffic, IPS, URL, data, etc.)

9.13 Logged user-identification correlated in real-time

35. Technical Certification:

- 9.2 Qualifications of Key Technical Staff to be deployed in NMC's assignment A Technical Personnel certified on the proposed NGFW System
- 9.2.1 Two Degree holders in support(Degree in IT or related field)
- 9.2.2 Diploma holder in IT related field
- 9.2.3 Personnel Certified in proposed NGFW System
- **36.** Warranty Period, Support and License Renewals must provide
- 10.2 At least One (1) Year Warranty

37. Support:

9.1 To provide Full access to the online support portal and 24 x 7 x 365 phone and email support. Additional elements to include full access to software fixes , features releases, and onsite support

B. TECHNICAL SPECIFICATIONS FOR CCTV SYSTEM

PLATFORM REQUIREMENT SPECIFICATIONS

	B Internal Hard Disks (2 Pcs)				
7.7 Led	Monitor (1 Pc)				
42. Technic	cal Certification:				
10.1	Qualifications of Key Technical Staff to be deployed in NMC's assignment.				
10.2	Two Degree holders in support (Degree in IT or related field)				
10.3	Diploma holder in IT				
10.4	Personnel Certified in proposed CCTV System				
	y Period, Support and License Renewals must provide				
11.1	At least One (1) Year Warranty				
44. Support					
12.1	Provide annual 24×7 , 365 onsite and offsite support, on need basis.				

12.2 Additional support to include full access to software fixes, features releases, and onsite support where applicable.

C.TECHNICAL SPECIFICATIONS FOR BIOMETRIC SYSTEM

	PLATFORM REQUIREMENT SPECIFICATIONS
45. Leave Ma	•
	te paid/ un-paid leaves.
	hly leaves accumulation based on yearly quota. eaves to carry forward balances, exclude weekly Offs, holidays, etc.
7.10.	Half day leaves.
7.11.	Easy to use leave application & printing of application form.
	ce Processing
	e click processing of the raw attendance data.
	s processing in bulk or individual employees within flexible date range.
8.3. Optio	n to manually change the timings by authorized users directly from attendance register.
8.4. Abser	nt tracking with remarks, with permission /without permission.
47 Communi	ication Module
	hronize with various hardware across multiple locations.
	integrated with multiple devices.
	ple technologies can work on the same software, providing flexibility to the user.
9.4. Auto	extracts attendance data from device at scheduled intervals.
9.5. Auto	integration of download data into application.
48. Overtime	Management
48.1.	Automated overtime capture and processing.
48.2.	Restriction based on overtime.
48.3.	Employee wise overtime configuration.
48.4.	Role-based access to overtime approvals.
48.5.	Special OT3 and OT4
48.6.	Easy overtime authorization flow
49. Special F	-
49.1.	Extensive clocking card management.
49.2.	Comprehensive employee master.
49.3.	Multiple record grouping levels for accurate analysis.
49.4.	Detailed parameters to customize application for specific environment.
49.5. 49.6.	Customizable processing periods. Holiday setup as per organization policy.
49.0.	nonday scrup as per organization policy.
50. Additiona	al Features
50.1.	At least up to 6,000 entries

At least 2000mAh backup battery

50.2.

50.3.	High-image quality (Face recognition / Retina scan) and fingerprint sensor
50.4.	Supports optional GPRS and Wi-Fi
50.5.	TFT display
50.6.	Uses TCP/IP communication
51. Configura	ations /Setup
51.1.	Job costing and audit trail.
51.2.	Auto emailer of report.
51.3.	Gate pass.
51.4.	Out station official visit tracking.
51.5.	Warning and termination letters.
51.6.	Automatic report scheduler and mailer.
51.7.	Report layout tool (for clients do design the reports).
51.8.	Integration to various ERPs (e.g SAP, SAGE, EBIZ, PEOPLE SOFT & Third-party
payro	011)
51.9.	Can be integrated with 3rd party for attendance data.
52. Technica	1 Support
52.1.	Any staff certified in IT e.g Networking or User Support.
52.2.	One staff certified to support the proposed system
53. Warranty	Period, Support and License Renewals must provide
53.1.	At least One (1) Year Warranty

SECTION VII - STANDARD FORMS

Notes on the Standard Forms:

7.1 Form of Tender

This form must be completed by the tenderer and submitted with the tender documents. It must also be duly signed by duly authorized representative of the tenderer.

7.2 Confidential Business Questionnaire Form

This form must be completed by the tenderer and submitted with tender documents

7.3 **Tender Security Form**

When required by the tender document the tenderer shall provide the tender security either in the form included therein after or in another format acceptable to the procuring entity.

7.4 Contract Form

The Contract form shall not be completed by the tenderer at the time of submitting the tenderer at the time of submitting the tender. The contract form shall be completed after contract award.

7.5 **Performance Security form**

The performance security form should not be completed by the tenderer at the time of tender preparation. Only the successful tenderer will be required to provide performance security in the sum provided herein or in another form acceptable to the procuring entity.

7.6 Bank Guarantee for Advance Payment.

When there is an agreement to have Advance payment, this form must be duly completed.

7.7 Manufacturer's Authorization Form

When required by the tender document, this form must be completed and submitted with the tender document. This form will be completed by the manufacturer of the goods where the tender is an agent.

7.1 **FORM OF TENDER**
